Further Mathematics Bridging Task 2

Welcome to The Blue Coat School Maths department Bridging Task 2 for Further Maths. We hope you enjoyed demonstrating your independent study skills through self-teaching yourself Algebra Division. A Level Further Maths requires a level of independent study skills and this second Bridging Task will continue to support that.

We hope you enjoy the second of these Bridging Tasks and find it useful in your progression from GCSE to A Level Further Mathematics and beyond!

> We are what we repeatedly do.
> Excellence, then, is not an act, but a habit. Aristotle

Please complete and mark the following questions on Polynomials and the Binomial Theorem.
Polynomials and The Binomial Theorem Questions
Polynomials and The Binomial Theorem Solutions

If you need further help with this topic there are lessons you can search for on www.mymaths.co.uk. Please see the details on the bottom of each page on the 'Polynomials and The Binomial Theorem Questions'. Use the username: blue and the password: graph

Please continue to use the same book/folder that you used for Bridging Task 1 so that you can show your teacher in September.

We hope that you enjoy this task and look forward to seeing you in September
